

2020 Student Device Lease Agreement Form

There are two device leasing options provided by the College, with the specifications and leasing terms indicated below:

College Options	Device	Specifications	Cost
Device Option 1	HP ProBook X360 11 EE G4 (meets minimum requirement for Years 4 - 8)	Core M3 CPU 8GB RAM, 128GB SSD, 11.6" HD Touchscreen, Dual Web Camera, Active Pen, AC WiFi, Bluetooth 5 STM Supercargo bag	\$100 per term over 3 years (12 payments)

Devices leased through the school program will be covered by an Accidental Damage Program (ADP) provided by the manufacturer. These programs provide for repair of unintentional accidental damage caused by drops, falls or collisions, liquid spilled on or into the device, and damage caused by power surge. The ADP terms provide for a maximum of three claims over the three year lease period with zero dollar excess charge. After the included ADP has expired additional ADP coverage may be purchased at the family's expense.

The Accidental Damage Program does not cover these devices for theft and/or loss. Insurance cover for theft and/or loss of devices must be organised by the leasing family. The leased device may already be covered by your existing Home and Contents insurance, or the device may need to be specifically added to your existing policy. Please check with your own insurance provider about the Terms and Conditions of device coverage for theft and/or loss.

Please note that should the device be damaged or stolen whilst in your care, families and students are responsible for the full cost of repair or replacement of the device where insurance cover is denied or has not been arranged.

In the event that a family with an existing leased device ceases enrolment at Pacific Lutheran College, the leasing family may surrender the device to the College without further charge provided that device (including all accessories) is returned in serviceable condition, or the family may payout the remaining lease cost (as determined by the Business Office) and retain ownership of the device.
