

2024 Student Device Lease Agreement Terms and Conditions

There are two device leasing options provided by the College, with the specifications and leasing terms indicated below:

College Options	Device	Specifications	Cost
Device Option 1	HP ProBook X360 11e (Recommended for Junior College. Not suitable for Senior College)	Core i3 CPU 8GB RAM, 128GB SSD, 11.6" HD Touchscreen, Dual Web Camera, Active Pen, WiFi 6, Bluetooth 5 Laptop bag	\$100 per Term over 3 years (12 payments)
Device Option 2	HP ProBook X360 435 (Recommended for Middle or Senior College. Not suitable for Senior Digital Solutions)	Core R5 CPU 16GB RAM, 256GB SSD, 13.3" FHD Touchscreen, Dual Web Camera, Active Pen, WiFi 6, Bluetooth 5 Laptop bag	\$130 per term over 3 years (12 payments)

Devices leased through the school program will be covered by extended warranty and accidental damage insurance (ADP). Insurance provides for repair of unintentional accidental damage caused by drops, falls or collisions, liquid spilled on or into the device, and damage caused by power surge. The insurance terms provide for a maximum of three repairs and one replacement over the three-year lease period with a zero-dollar excess charge.

The insurance program does not cover these devices for theft and/or loss. Insurance cover for theft and/or loss of devices is the responsibility of the leasing family. Please check with your own insurance provider about the Terms and Conditions of device coverage for theft and/or loss. Please note that should the device be lost or stolen whilst in your care, families are responsible for the full cost for replacement of the device where insurance cover is denied or has not been arranged.

At the conclusion of the lease, families will be charged a nominal release fee (less than \$10) to meet the College's legal Tax obligations, and ownership of the device transfers to the family. At this time insurance and any required repair costs become the family's responsibility.

In the event that a family with an existing leased device ceases enrolment at Pacific Lutheran College, the leasing family may surrender the device to the College without further charge provided that device (including all accessories) is returned in serviceable condition, or the family may payout the remaining lease cost (as determined by the Business Office) and retain ownership of the device.

Please note that Pacific Lutheran College only provides internet filtering while devices are connected directly through the College network. Filtering is not provided while devices are connected through a VPN or are on a different network, including when hot spotting through a mobile device. This applies to all devices, including BYO and College owned or leased devices.
