

Excel in Yr 12 external exams Maths and science bootcamps

Griffith UNIVERSITY
Queensland, Australia

Science on the GO!
Griffith University Online Program

Get the edge with Griffith's Year 12 Online Academic Bootcamps, submit your expression of interest now to secure your place.

Griffith University's Academic Bootcamps are highly effective four-day courses run in the September school holidays, designed to help Year 12 students achieve their full academic potential.

In 2023, we are providing the opportunity for Year 12 students to participate in an online version of the Bootcamps in the September school holidays. These are to allow for students outside of the Gold Coast area, and to those students who cannot easily attend in-person, access to these programs.

Bootcamp benefits

Our practical content is designed and delivered by experienced Year 12 teachers who are subject specialists and are currently teaching these units in schools. They will assist students to:

- gain a distinct advantage
- build exam confidence and understanding
- learn invaluable study tips and tricks
- revise and consolidate subject knowledge
- prepare for tertiary study

Expression of Interest

Places are limited for these highly sought-after sessions so to secure your place, please complete the Expression of Interest at:
