

Aura and Harmony Program

WORKS NOTIFICATION

Kawana Forest: River Trail Shared path closure - September 2023 to late 2024

Unitywater provides essential water and wastewater services for the growing Sunshine Coast region. With a projected population of 69,000 residents in Aura by 2056 and 21,000 residents in Harmony by 2036, new water and wastewater infrastructure is essential to meet the future demands of the communities, ensuring their long-term sustainability and development.

What we're doing:

As part of our program of works, we are installing a new wastewater pipeline to connect Aura to the Kawana Wastewater Treatment Plant. The wastewater pipeline alignment will be drilled underground through the Kawana Bushland Reserve, with trenching up until the southern entry to the reserve.

In agreement with Sunshine Coast Council, we will need to temporarily close the Kawana Forest: River Trail shared user path, so that we can safely conduct excavation and trenching work required to install the new Aura wastewater pipeline.

The closure will ensure we maintain a safe distance between pedestrians and cyclists from machinery, vehicles and equipment that will be onsite for the works. The works will include:

- Clearing vegetation from the site
- Excavation before trenching
- Installing the wastewater pipeline
- Reinstating the area, including full restoration of the track.

Signage notifying of the closure will be installed at several entries for the safety of users of the river trail.

We apologise for the inconvenience caused by the temporary closure of this path.
